To whom it may concern,

Aeronet Wireless Broadband LLC, a Hybrid Internet Service Provider deploying Fiber and Fixed Wireless Broadband services to Puerto Rico, USVI and South FL establishes the following statements:

Our services provide connectivity to over 6000 businesses and consumers in the markets we serve, including a rural areas where no high speed Internet access is available.

After Hurricane Maria wrecked Puerto Rico, the demand for fixed wireless services has grown over 200% due to the fact that terrestrial infrastructure is damaged and the restoration of such infrastructure will take years.

Consumer demand for next generation broadband services and 5G requires new spectrum assets that are within reach of a small, locally owned provider like Aeronet and many others that serve Puerto Rico.

The CBRS band will allow Aeronet to provide 5G Fixed Wireless Access services to all Puerto Rico, and USVI.

Aeronet supports WISPA position in regards to CBRS rules. We strongly oppose the proposal to increase the size of PALs. We strongly oppose the use of PEA.

Gino A. Villarini  
President  
Aeronet Wireless Broadband LLC
